The 8 annas paid for the postage up to Liverpool were the forwarding agent than dispatched the letter outside of the post to the addressee in Philadelphia. Only very few similar covers are recorded where the high transatlantic and US postage fees were avoided (including only three from this correspondence, this cover is the only one with the De la Rue issue). In general India letters were send from England to the US via post (see Jochen Heddergott Grand Prix collection). A POSTAL HISTORY RARITY. BPA certificate (2011) | SG 36 ☒ | 450,- |

Unique item from the French/International excursion in Siam January 1947. As the result of the French-Siamese War 23/Nov/1940 until 22/Jan/1941 France succeeded territories in North-West Cambodia and West of the Mekong in Laos to Siam. After the liberation of French Indo-China by French and Indo-Chinese Troops and with international pressure Siam voluntarily relinquished the territories annexed to them in 1941. The region around Bassac (Laos) was returned on 15/4/1946. As a result of the unrest in the region an alliance between Ho-Chi-Minh (Communist China) and the King of Laos to reclaim lands in Northern Laos led to strong tension in Siam. A coalition of Japanese Troops plus Viet-Minh army re-inforced with Siamese Troops led to a French Detachment been sent to Bangkok in January 1947. On the 27/Nov/1947 all territories annexed in 1941 had been returned to France. | ☒ | 6.000,- |

| P 3631 | Early 19th Century, AMBAN COVER : at right the stripped brick shaped red-seal of the emperor of China. This red seal was authorised to be used by the emperor of China. The usage has been found between the time of the nepaleses Kings Rana Bahadur Shas and Prithvi Bir Bikram Shas. The story with these covers begins in 1792, at this time of Bahadur Shah was a war between Nepal and Tibet, in which Tibet requested military assistance which was granted by the Emperor of China. Nepal had not the ability to resist such a great army so it came to a treaty between Nepal and China and a Chinese Embassy was established in LHASA. The embassy People were called „Tuchyang Tathin Amban“. And so covers from the embassy in Lhasa were called 'Amban Covers'. At the upper portion of the cover the name of the emperor is written and the lower portion bears the name of the King of Nepal. This cover is in usual condition with paper partly damaged and wrinkles. Nevertheless a very rare desirable cover for the great Tibet or Nepal collection. . (M) | ☒ | 500,- |

3. The Auctioneer has the authority to knock down lots pending the permission of the seller. The bidder is bound by his bid for a period of 4 weeks beginning on the day of the knockdown. It is allowed to hammer an under reserve lot to another limit bidder.

4. The Auctioneer has the right to exclude persons from the auction without giving any reason. Trading and exchange are not allowed in the Auction rooms.

5. The knockdown is allocated to the highest bidder after the third call. The Auctioneer has the right to refuse a knockdown for founded reasons or to make knockdown under reserve. When a bid is refused, the previous bid is valid. When more than one bidder has submitted the highest bid, the decision will be made by draw. In the case of written bids, the order of receipt of bids is valid. These bids will be treated with confidence and will only be used to top the previous bid. Telephone bidders must offer at least the limit price and a written confirmation must be submitted thereafter. In the event of non-reachability, the minimum bid is valid. Lots, which receive a „counter-bid“, require a minimum bid of 20,- € and will be knocked down to the highest bid.

6. The Auctioneer receives a premium of 20% of the knockdown price from the buyer plus 2,- € per lot. In the event that the goods are despatched by post/courier, the postage and insurance amounts will be charged additionally. Value Added Tax will be added to the knockdown price as well as to the miscellaneous costs. For purchases from abroad, which we dispatch directly to a third country (non-EU!), the Value Added Tax will not be invoiced. This also applies to companies in the EU countries, when the Sales Tax-ID-Number is given (so called inner-community delivery).

7. The Purchase Order contract between the Auctioneer and the Buyer becomes valid with the knockdown. With this contract, the buyer is obliged to accept and pay for the goods at the point of sale. In the case of bidding for a third party, both buyer and third party are liable. The moment of knockdown, all risks concerning losses or damage are the responsibility of the buyer. The ownership of the auctioned goods will only be transferred to the buyer when full payment has been effected. Bidders making written bids will in general receive a pre-payment invoice that is due for immediate payment. Only when the invoice has been paid fully, has the buyer the right to demand possession of the auctioned goods.

If it is agreed to ship the purchased lots, the purchaser is obliged to inform the auctioneer in writing for reasons of investigation within ten weeks after the end of the auction (in case of prepayment: after the payment of the goods) if the goods to be shipped are not or incompletely received.

8. All invoices that have not been paid at the latest 14 days after the auction and/or receipt of the invoice will be subject to interest of 3%. Furthermore, 1,5% interest per month will be charged, unless the buyer can prove that only minimal or no damage has been caused. Furthermore, the Auctioneer can decide whether after a set period, compensation will be charged, due to non-fulfilment. The damages can be regulated in such a manner that the lots are taken into a future auction and the debtor is charged the difference between the knockdown bid and the previous bid as well as all the costs connected with this transaction, including the additional costs and charges of the Auctioneer. There is no demand for higher realizations.

9. The objects for auction may be viewed and inspected prior to the auction. These objects will be auctioned in the condition they are in at the time of auction. The catalogue descriptions were made in the best will and conscience and do not guarantee any characteristics. The buyer cannot hold the Auctioneer liable for any faults, on the condition that the Auctioneer has not committed any acts of negligence. Collections, lots etc. are excluded from complaints, otherwise the Auctioneer is obliged to hold the Vendor liable for any complaints made within the limited period of 4 weeks after the auction and which are covered by one year guarantee.

Complaints of individual lots must be presented on the original auction lot cards. The complaint lots must be presented in their original condition. This applies to the removal of hinges, submersion in water as well as chemical treatment. Only the application of sign information by a member of the Bund Philatelistischer Prüfer e.V. (BPP) will not be regarded as tampering. In the event of complaints, the Auctioneer can demand a written expertise of the respective BPP expert. In the event that a buyer intends to get an expertise, then he must inform the Auctioneer of this fact before the Auction. The period for complaint will be prolonged respectively. However, this does not mean exclusion of prompt payment for the lots. Any faults, which are obvious at the time of photography, are excluded from the right of complaint. In the event of claim, the Vendor is obliged to refund the purchase price as well as knock-down commission. Any additional claims are not possible.

Descriptions such as „Pracht“, „Kabinett“, „Luxus“ etc. are a subjective opinion of the Auctioneer and under no circumstance a statement in regard to trading rules and regulations. Lots which bear the description „feinst“ or „fein“ may possibly have small faults. Pieces where the value is defined by cancellation are excluded from complaint of any other defects.

10. Objects dispatched for viewing only include individual lots. These must be returned to the auction company within 24 hours, whereby our choice of dispatch must be utilized. Any dangers and costs are for the account of the requesting party. In the event that these lots are not present in the auction house on the day of auction, then these will be knocked down in favour of the requesting party one step higher than the highest bidding price, however at the least for the call-out price.

11. Place of fulfilment is Bietigheim-Bissingen. Place of jurisdiction for the full trading is Ludwigsburg.

12. Only German Law is valid. The UN Treaty for contacts concerning international goods sales (CISG) is not applicable.

13. The above conditions are valid in the general sense and also apply to the post-sales and free sales. The regulations concerning sales in “Fernabsatz“ are not applicable.

14. Should one of the above conditions become invalid, the validity of the other conditions will remain unchanged.
