Sollte es in unseren Print- oder Online-Katalogen bei einzelnen Losen zu Abweichungen zwischen Bild und Losbeschreibung kommen (z.B. unterschiedliche Ausrufspreise oder die Losbeschreibung passt nicht zur Abbildung), so gelten die Angaben der Losbeschreibung als verbindlich.

Given that in our print- and online-catalogues lot-numbers have differences between the image and lot description (f.e. starting prices are different or the picture does not fit with the corresponding description), the data of the lot description has to be regarded as valid.

PRIVATE TREATY BAHRAIN

Development of Postal Services in Bahrain 1884 to 1948

In 1883, when the Superintendent of Post Offices for the Persian Gulf and Turkish Arabia, visited Bahrain, the principal merchants on the island, accompanied by the Native Residency Agent, waited upon him and asked that their petition for a post office be placed before the Postmaster General of Bombay. A bond was signed by representative Arab and Indian merchants undertaking to make good to the Indian Postal Department any deficiency that might be found between the income of the post office and the cost of maintenance during an experimental period of six months.

A post office was opened and placed in account of Bushire Head Post Offices on the 1st August following establishment:

| | |
|--------------------|-----------------------------|
| A Sub-Post Master: | 40 Rupees |
| Local Allowances: | 10 Rupees |
| Contingencies: | 2 Rupees |
| Postman: | 10 Rupees (added July 1885) |
| House Rent: | 15 Rupees (added July 1885) |

The post office was opened on the island of Bahrain, which at that time was the largest and commercial island though not the capital – it was also the port where the steamers called. The from Bombay would call at Bahrain weekly while those from Basrah would call fortnightly.

It had a resident population of 70,000 which included a small wealthy and influential community from Sind, who had settled there for the purpose of trade. At the time the pearl fisheries yielded STG 150,000 a year – dates, fruit and basny were other important exports while imports were almost entirely from India. It was to remain the only post office in Bahrain until 1st June 19 office was opened on the island of Muharraq.

This exhibit traces the development of the postal service in Bahrain through the economic country from a pearl and date driven economy to an oil driven economy. The various postal rates post office are illustrated through a variety of covers, which present various destinations, set along with the history of all the various cancellation marks and other hand-stamps used at during the Indian Period.

CHAPTER ONE: ESTABLISHING THE POST OFFICE

From Experimental Post Office to Sub Post Office

From 1875 and until the establishment of the post office in 1884, the native agent of the British Indian Steam Navigation Company received from the Postal Department an allowance of 18Rs a month for discharging some of the functions of a post office. He dealt with unregistered letters only, making up mails for Bushire and Bombay, and receiving mails in return from those offices. No mail has been recorded from the 1875-1884 era.

These duties, simple as they were, were not satisfactorily discharged, and the absence of a properly constituted post office was a hindrance to trade, especially during the pearl fishing season from March to October when trade flourished around Bahrain. As a consequence of this the Arab and Indian merchants regularly petitioned for an Indian Post Office to be opened at Bahrain, a request that finally gained support in 1883 during a visit by the super-intendant of post offices in the Persian Gulf and Turkish Arabia.

The Earliest Recorded Mail from Bahrain Post Office.

24 September 1884: The cover shown here was sent from the Bahrain Post Office. It is the QV 1/6 blue pre-printed envelope and has been sent to Bombay where it arrived on 10 October indicating 16 days in transit. It is the earliest record of mail from Bahrain Post Office.

Earliest Recorded Use: 24 September 1884
Latest Recorded Use: 10 August 1885

Small Single Circle Date Stamp with Circular Bombay 8 Donaldson Type 1

The first canceller to be introduced at the post office was a date-stamp, which was applied in conjunction with a circular 'B'. It was not a duplex so it is uncertain whether the 'B' was applied at Bahrain or Bushire, to which Bahrain was a sub-post office.

The Post Office opened on 1 August 1884 and proved an instant success from a departmental point of view and an immense boon to the merchants and others. From its opening it operated with no restrictions, including exercising the function of insuring articles, something that had brought the Post Office into conflict with the British India Steam Navigation Company's (BISN) agency in Bahrain by 6 September 1884. The conflict centered on the insuring of pearls with the BISN threatening to close their agency unless the Post Office stopped this practice. Orders were issued to the Postmaster to discontinue accepting pearls for dispatch and Bahrain became a non-insurance post office.

Fortnightly Steamer Calls at Bahrain

The mail steamers would call fortnightly at Bahrain but only on their passage up the Persian Gulf. On the down passage mail bags for Bahrain would be dropped off at Linga and picked up by the next steamer travelling up the Persian Gulf.

8 October 1884: The cover shown here was sent from Bahrain, where it was cancelled with Type 1, to Bombay and has been franked with 1/6. The letter has received a Bombay arrival stamp dated 24 October indicating 16 days in transit being the same transit time as the letter sent on 24 September.

The cancellation, 6 October 1884, is exactly 2 weeks after 24 September 1884 meaning that the letter would have lay on the next steamer to call on Bahrain.

The Earliest Registered Letter sent from Bahrain

1885: Shown here is a QV 1s blue pre-printed envelope that has been up-rated by 2as in order to pay for the fee. The cover has been cancelled with Type 1 at Bahrain and has had a boxed 'RE-BAHRAIN' applied to the received a Bombay arrival stamp dated 31 August indicating 21 days in transit.

This represents the earliest record of registered mail sent from the Bahrain Post Office and confirms the availability of the service from the early stages of the post office operating.

Only covers cancelled with Type 1 have been shown here and with only four Type 1 covers recorded mail from Bahrain during the early period is rare.

2as Registration Fee

The below two covers were both sent registered to Muscat – one cover shows the stamps used to seal the back of the cover while the other cover shows the unconventional use of stamps on the front of the cover.

Registered Triple Inland Letter Rate sent to Muscat

16 May 1897: A registered cover sent from Bahrain to Muscat where it received an arrival stamp dated 2 days in transit. It has been franked with 3/6as covering the registered rate for a weight up to 15g, had the boxed registration cachet impressed on the front of the cover with '56' applied in blue manuscript.

Registered Triple Inland Letter Rate sent to Muscat

22 May 1900: A registered triple inland rate letter cover sent from Bahrain to Muscat where it received an arrival stamp dated 23 May indicating 3 days in transit. The cover has had the boxed registration cachet impressed on the front of the cover with '54R' applied in red manuscript.

Zeppelin Mail from Bahrain

Zeppelin mail is known sent from Bahrain on two occasions – 26 July 1933 and 30 May 1934. On both occasions the covers are franked with 9/6as but the 1933 cover received an additional 10d in postage while transiting London.

26 July 1933. The cover was sent from Bahrain via London (1 August) from where it was forwarded to Berlin (5 August) arriving at Pernambuco, Brazil on August 9 indicating 14 days in transit.

A Zeppelin cover that was not

3 October 1934. The cover was sent from Bahrain and intended for the Zeppelin flight, however, insufficient franking kept it from being carried on the Zeppelin to Brazil – The Zeppelin label was annulled in London. From London the cover was forwarded to Berlin (10 October) arriving at Pernambuco, Brazil on 26 October indicating 23 days in transit.

German Catapult Post

In Germany, up to 37 airlines competed for airmail, until in 1926 when the German government consolidated all airmail under a single national airline, Deutsche Luft Hansa.

On December 5, 1929, Germany launched an airmail route to compete with Aeropostale, flying mail from Germany, through Seville, Spain, to the port of Tenerife in the Canary Islands. German ships would pick up the seaplanes by crane, refuel them, and then launch them again by catapult. On the other side of the Atlantic, other German mail ships would sit at anchor. When the German airmail seaplanes landed near the ships, they would refuel and be launched again by catapult to fly into South America, where German immigrants had started continental airmail service.

German airmail carrier shortened its name to Lufthansa. Also, the independent German airline companies South America joined Lufthansa, which expanded along the Pacific and Atlantic coasts of South America. F-11 and Junkers G-24 floatplanes and using powerful Ju-52s to cross the Andes.

Air Mail cover shown here was sent from Bahrain to Recife in Brazil on 10 July 1935. It has been franked with 2/6as. The cover has had 'By Air Mail via Baghdad - London' and 'to Brazil (via Friedrichshafen - Bremen) on the front.

Die Gotik von einst und aus der neueren Zeit

Bei der Restaurierung der Marienkirche in Lübeck, wurden angeblich gotische Fenstern entdeckt. Durch die Aufdrücktheit des Restaurators und Fälschers wurden sie als solche erkannt und beseitigt. Die Marken über Malerei von.

Die Zerstörung der Gotik und der menschlichen Malerei ist nur schwer zu vollziehen. Das gleiche gilt für die Spätgotik im 19. Jh. Sie blieb, trotz Studienreisen oft länger der Welt erhalten. Künstler.

Bei Giotto di Bondone nehmen die Menschen Gestalt an

Sonderstempel zur Ausstellung seiner Werke zum 600. Todestag von Giotto 1266-1337
Cassale soll den jungen Giotto entdeckt haben. Giotto war der erste Maler, der die byzantinische Malerei erneuert und mit Perspektive und Körperbildung des Grundrisses für die kommende Frührenaissance gelangt hat.

Regier van der Weyden 1399-1464, der Meister des Bildlaufbaus

Am dem Gemälde St. Lucas schneidet die Jungfrau Christus am Kreuz. Tausendteile die H. Magdalena Pflegt des Bräutigams-Tripelchens.

Die Ausstellung der alt-niederländischen Malerei in Italien bedeutet auch deren Anerkennung. Rogier van der Weyden ist der überlegene Feinschlichter der alt-niederländischen Malerei. Erst als 27-jähriger kam er zu Robert Campen in die Lehre. 1430 unternahm er eine längere Reise, die ihn mit den Werken seiner alt-niederländischen Kollegen bekannt machte.

Mál zur Nationalhymne «Vni se mně židino» Tschechoslowakei 1925 Nationalhymne Prag. Josef Mares 1820-1871 ein sehr begabter Schüler von Moritz von Schwind. Mares ist ein Künstler mit Einfluss der deutschen Spätromantik, aber auch mit Bezug zur böhmischen Historienmalerei. Er studierte in München. Die idealistische Überhöhung des Ichs ist deutlich zu erkennen.

Attest

Die Kunst hat immer und überall dem Staat zu dienen

Fattinet 2 P für mehr als eine halbe Liter Gewicht. Wilhelm Meiswiler 1796-1863 war ein genialer Zeichner und Buchillustrator. Auf der ersten Ausgabe der Welt von 1841, zeigt er das englische Volk, das dem Staat, Briten beiläufig in die vier Winkel schlingt.

Porträtschneidestempel der Zentralschulung vom 8. April 1902 in der Zeit der Helvetik. Ein gut erhaltenes Helvetikstempel, mit dem Bild des Freiheitskämpfers Wilhelm Tell mit seinem Sohn, der den Landvogt erschossen hatte. Wie wir sehen ist die Helvetikmalerei nicht an die Geschichte gebunden. Der Tell hat keine Ähnlichkeit mehr, er trägt ein Gewand. Im Apfel sieht aber auch der Fiedel. Vier davon Stempel geschieden hat, ist nicht mehr zu erkennen, aber die Kunst war auch in dieser schweren Zeit noch mit dabei.

Moritz von Schwind 1804 - 1871 Er überträgt Stimmung auf das Bild

Selbstbildnis des Künstlers. Zum 130. Geburtstag. Porträt von Leubach.

Wiparke aus dem Block mit Faserpapier. Die Hochstempel.

Moritz Schwind gilt als Hauptvertreter der deutschen Romantik. Seine Lehrer in der Künstlerakademie in Wien waren Johann Schauer und Peter Krack.

«Der Postkutscher» mit dem Stempel Künstler-Block (auch im R-Zettel) Künstler-Block, das war der Name des Verbandes, der etablierten Künstler-Block auch er angeht. Bogenmarken, ohne Fasern im Papier.

4.6.3 Marshallplanung

Die Zone A des Zweizonnenplans Triest veranlaßte am 15.6.1949 eine Sonderausgabe zu Ehren der ERP-Hilfe für Europa.

Die amerikanische Hilfe des "European Recovery Program" (ERP) bekannt zu machen, wurde ein Sonderzug zusammengepackt - der "Marshallplanung". Veranstalter war die Württemberg-Baierische Messe-Gesellschaft in Stuttgart im Auftrag der ECA. Auf seinen zwei Reisen hielt der Zug in 10 Städten Westdeutschlands. Die erste Fahrt fand vom 11.8.-5.12.1950 mit 45 Stationen statt, bei der 2. Reise, vom 21.2.-18.4.1951, wurden 21 Stationen angefahren.

4.6.2 ERP-Werbung in Italien und Triest

Die Industriezeugung Triests war auf 69% der Vorkriegseinstellung zusammengesunken. Der Handel, vor dem Kriege durch seinen bedeutenden Hafen auf hohem Niveau, hatte schwere Entschäden mitnehmen müssen, und der Handelsflotte war jedes dritte Schiff verloren gegangen. Die ERP-Güter wurden dringend gebraucht. Seit Kriegsende waren die Beziehungen zwischen Jugoslawien und Italien umstritten. 1947 kam es zur Teilung in zwei Zonen britisch/amerikanisch, die neue Probleme brachte. 1954 wurde Triest getrennt. Die Stadt ging an Italien, der Rest an Jugoslawien.

3.1.6 CARE
3.1.6.4 Portierentlohnung durch das ERP

Liebesgaben konnten, wenn sie den geeigneten Aufkleber trugen, im Rahmen des Marshallplans zu ersäßigem Porto aus den USA verschickt werden. Der Text des Aufklebers in englischer, deutscher, französischer und griechischer Sprache weist darauf hin. Vom Mai 1946 an gab es auch wieder den Postverband auf dem normalen Postwege. Diese privat gestellten Hilfen waren noch viermal so hoch wie die von CRALOG und CARE zusammen.

Wirtschaftliche Hilfe nach dem Zweiten Weltkrieg durch die ERP

George C. Marshall (1880-1959), amerikanischer General und Staatsmann, vom Januar 1947 bis Januar 1949 Außenminister, 1950-51 Verteidigungsminister der USA. Am 5. Juni 1947 verkündete er dem nach ihm benannten Hilfspakt Amerikas zum Wiederaufbau Europas. Für dieses Friedenswerk wurde er 1953 mit dem Nobelpreis ausgezeichnet.

3.1.3 Hilfen der Schweiz

Die Schweiz hat in und nach dem Zweiten Weltkrieg in außerordentlichem Maße die Hilfe für die Länder Europas und Deutschland mitgetragen. Die Schweizer Spende begann 1944 unter Roberto Gilardi mit einem 10-Millionen-Franker über schweizerischen Bundesregierung. Kriegsgeschädigten in Belgien, Frankreich und den Niederlanden zu helfen. Nach der Waffensuche wurden weitere Länder in die schweizerische Hilfe einbezogen. Zum Beispiel Deutschland Ende 1945.

4.3 Ministerien - eigene für den Wiederaufbau

Deutschland hatte, wie einige andere europäische Länder auch, für den Wiederaufbau ein eigenes Ministerium eingerichtet. In Deutschland heißt es Ministerium für den Marshallplan, da durch die Geister des Marshallplans der Wiederaufbau so früh einsetzen konnte. Dieser Abendveranstaltet eine sehr wichtigen Ministerium ist von 10.1.1951 - 6.5.1956 eingesetzt worden. Dennoch sind nur sehr wenige Exemplare erhalten.

4.2 Wirksame Methoden für das ERP
4.2.1 ERP-Ausstellungen

Deutsche Industrieausstellung 1951
Daneben die Ausstellung wurde als ERP-Ausstellung deklariert, stand sie doch ganz im Zeichen des Wiederaufbaus. Maschinen wurden aufgrund des Marshallplans geordert. Die Messe wurde mit neuen Optimismus und dem Wissen über die Hilfsprogramme der Amerikaner besucht. Berlin hat die Ausgaben eines Fortschrittprogramms 1950-1950 in Höhe von 1,3 Milliarden DM zu etwa 70% aus Mitteln des ERP finanziert, darüber 200 Mio. DM für die Gastwirtschaft.

I AM A BASKETBALL

Dr James Naismith invented basketball, and me, in 1891 while he was an instructor at the YMCA Training College at Springfield in Massachusetts, USA. The original aim of the game was to keep sportsmen fit between the football and baseball seasons.

However, because it was non-contact, completed within a short period, and fun, my game soon became an important sport in its own right, and gained Olympic status at Berlin in 1936. Today my game is played in more than a hundred countries, is equally popular with men and women, and is a huge spectator sport.

I am going to lead you through the history of the game, explain its appeal to a wide range of players, then describe the facilities and equipment, how the game is played, and finish with the highlights of competitions in the World Championships and Olympic Games.

I appear on many philatelic items, including design sketches, die proofs, colour trials, specimen items, printing and perforation varieties, and overprints. My research adds to the interest of many of the items displayed.

Notable items have been highlighted with a double-lined frame

I started playing Africa only quite recently, and so most tournaments are held within Africa, and few teams qualify at higher levels yet.

Die kleineren um den Eiskontinent

Felshängergän
Typisch für den Felshängergän ist seine Fortbewegung an Land. Er läuft mit beiden Füßen zugleich. Diese Bewegung ermöglicht stiel Hänge und Felsen zu überwinden. Er springt zu anderen Arten mit den Füßen vom Meer. Er hat eine Stachel von 44-49cm (Gesamtlänge 43 cm). Seine Nahrung sind Kieselsteine. Die Kolonien liegen im Küstenbereich zwischen Felsbrocken, steilen Klippen, die für andere Arten nicht erreichbar sind. Es wird meist nur ein Küken aufgezogen. Das Weibchen beginnt mit dem Brüten. Nach 14 Tagen übernimmt das Männchen für 8-16 Tage das Brüten. (Gesamtdauer ca. 32 Tage). Das Männchen übernimmt die Kükenbeobachtung für etwa 3 Wochen. Das Kindergarten stadium dauert ca. 7 Wochen. Felshängergän verbringen viele Monate des Südwinters auf offener See.

Der Felshängergän hat auf jeder Kopfseite ein gelbes Felsenfisch, das hinter den Nasenlöchern beginnt.

Felshängergän haben sich auf der Sub-Antarktis Insel Kerguelen und andere Sub-Antarktis-Inseln auf.

Die Größten

Königspingvin
Der Königspingvin ist die zweitgrößte Art der Pinguine. Angewachsene Tiere werden bis zu 95 cm groß. Es sind Bewohner der gemäßigten subantarktischen Küsten und Inseln. Er brütet erstmals im Alter von 6 Jahren. Von den 2 gelagerten Eiern wird nur 1 Ei bebrütet. Der Königspingvin baut keine Nester, sie tragen das Ei auf dem Fußkittchen und gehen damit nach umher. Die Küken sind beim schlüpfen nackt. Kurz danach bilden sich die erste Daunenwacht auf der Haut. Nach 2 Jahren ist das Federkleid dem erwachsenen Königspingvin gleich.

Die Schwedische Antarktis-Expedition überwinter in Februar 1902 auf der Snow-Hill Insel (Antarktische Halbinsel). Am Nahrungsmangel erkranken Sie sich von Pinguinen und Robben. Im Bereich der Antarktischen Halbinsel hatten sich Kaiser, Adelfe und Zügelpinguine sowie Weddellroben und Rossroben auf.

WICHTIGE INFORMATION

Zum 1. Januar 2014 wurde die Umsatzsteuer für Sammlungsobjekte wie Briefmarken und Münzen von 7% auf 19% erhöht.

Deshalb bieten wir in unseren Auktionen inzwischen den überwiegenden Teil der Lose differenzbesteuert an. Bei diesen Losungen wird weder für den Zuschlag noch für das Aufgeld Umsatzsteuer gesondert berechnet, da wir als Auktionshaus die anfallende Umsatzsteuer bei Lieferungen in Deutschland und innerhalb der EU tragen.

Seit der 29. Auktion können wir nun auch viele Lose differenzbesteuert anbieten, für die zuvor 19 % Umsatzsteuer erhoben werden musste. Hierbei handelt es sich um Lose, die in die EU eingeführt worden sind. Die mit dem Import verbundenen Kosten in Höhe von 7 % des Zuschlags müssen wir an Sie weiterberechnen (= Importspesen, die Bestandteil des Kauf-

preises sind). Diese Importspesen werden auch dann berechnet, wenn das gekaufte Los exportiert wird. Alle Lose dieser Art sind im Katalog mit einem Plus hinter der Losnummer (Beispiel: 4839 +) gekennzeichnet.

Nur Lose mit einem Punkt hinter der Losnummer (Beispiel: 3412 ●) unterliegen der Regelbesteuerung von derzeit 19 %, so dass wir hier Umsatzsteuer für Zuschlag und Aufgeld berechnen müssen (entfällt bei Export).

Bei allen Losen ohne Kennzeichnung (● oder +) werden nur Zuschlag und Aufgeld berechnet – keine Umsatzsteuer oder Importspesen!

Welche Auswirkungen dies für Sie als Bieter hat, wird an den folgenden Beispielen für ein Los, das mit 1.000,- € zugeschlagen wird, deutlich:

IMPORTANT INFORMATION – FOR EC CUSTOMERS MAINLY

Since January 1st, 2014 the German VAT for collectibles like stamps and coins was increased from 7% to 19%.

Therefore, we now offer the majority of our lots under margin system. No tax at all will be charged on top neither on the hammer price nor on the buyer's premium for these lots and the Christoph Gärtner Auction Company pays and transfers the VAT.

Starting with the 29th auction we now can offer many lots under margin system for which we previously had to charge 19 % VAT. These are lots which have been imported into the EC. The costs of the import amount 7 % of the hammer price

which we have to charge you (= import expenses, part of the buying price). The import expenses will also be invoiced, if the lots are exported. All lots of this kind are marked by a plus after the lot number (ie 4839 +).

Lots marked in the catalogue by a point after the lot number (ie 3412 ●) will be charged under normal VAT rate of 19 %, if the lot is not exported (not charged when exported).

For all lots without any mark (● or +) only hammer price and buyer's premium will be charged - no VAT or import expenses will be added!

By implementation of the margin system purchasing of relevant lots will be 3,6% cheaper now for EC buyers.

Lots purchased in order to be carried out to Non-EC-Countries are exempted from taxation as before.

Erklärung zu Abbildungen und Losbeschreibungen

Sollte es in unseren Print- oder Online-Katalogen bei einzelnen Losen zu Abweichungen zwischen Bild und Losbeschreibung kommen (z.B. unterschiedliche Ausrufspreise oder die Losbeschreibung passt nicht zur Abbildung), so gelten die Angaben der Losbeschreibung als verbindlich.

Die Katalogwertangaben in EURO (€) beziehen sich, sofern nicht anders angegeben, auf den jeweils aktuellen MICHEL-Katalog zum Zeitpunkt der Katalogbearbeitung. Ausländische Spezialwerke sind gegebenenfalls zitiert.

Sammlungslose werden grundsätzlich „wie besehen“ versteigert. Die Beschreibungen erfolgten nach bestem Wissen und Gewissen. Reklamationen sind bei Sammlungslosen ausgeschlossen.

PLEASE NOTICE

Explanation to pictures and lot descriptions

Given that in our print- and online-catalogues lot-numbers have differences between the image and lot description (f.e. starting prices are different or the picture does not fit with the corresponding description), the data of the lot description has to be regarded as valid.

The catalogue value stated in EURO (€) is based, unless otherwise stated, on the actual MICHEL catalogue at the time of our catalogue compilation. In some cases, specialised foreign catalogues may also be quoted.

Collection lots are "sold as seen". The lot descriptions are made in the best will and conscience and do not guarantee any characteristics. Collections lots are excluded from complaints.

Abkürzungen bei der Losbeschreibung

Bei den Losbeschreibungen vor der Losnummer verwenden wir folgende Abkürzungen:

P = **PINT** / diese Lose sind im Katalog bebildert
W = **WEB** / Abbildungen zu diesen Sammlungen sind online unter www.auktionen-gaertner.de vorhanden, diese Lose sind nicht im Katalog abgebildet

Die Buchstaben in Klammern am Ende der Beschreibung weisen auf die Art der Aufbewahrung des Loses hin:

A = **Album** **K** = **Karton** **M** = **Mappe**
S = **Schachtel** **T** = **Tasche**

Abbreviations at the lot description

At the lot numbers in the lot description we use following abbreviations:

P = **PINT** / these lots are pictured in the catalogue
W = **WEB** / you will find pictures of these collections online on: www.auktionen-gaertner.de

The different letters you will find in brackets after the description are indicating the size and packing of the lot:

A = **binder** **K** = **big box** **M** = **folder**
S = **box** **T** = **envelope**

Abkürzungen bei den Abbildungen

Bei den Abbildungen vor der Losnummer verwenden wir folgende Abkürzung:

ex. = **EXEMPLARISCH** / bei diesen Losen wird nur ein Teil des Loses abgebildet, die restlichen Bilder finden Sie online

Abbreviations at the pictures

At lot numbers below the pictures we use following abbreviation:

| W 20109 | 1860's/1980's (ca). This is one man's lifetime holding, an opportunity not to be missed representing a substantial album with 1000s of stamps with much substance. However the best part is probably the material waiting to be processed including 1000s of stamps as well as postal history and postmark studies from the 19th century onwards, crammed in two very well filled volumes, making 3 excellent collections/study groups. Further highlights include early large tigers including on cover, dozens of 1880s handstamped issues, 1891/92 1r gray blue unused part-sheet, etc. Also multiples of the 1893 unissued registrations, all the way through to 1932 inauguration issues and imperf sheets of 12, etc. An opportunity not to be missed, so much here to research. | P 20589 | 1878/2018, FALKLAND ISLANDS AND DEPENDENCIES: extensive collection in 17 volumes, built on self-made sheets after all possible aspects, which gives this area. 3 volumes are devoted to the naval battle of Coronel 1914, the naval battle off the Rio de la Plata in 1939 and the Falklands War in 1982 (here also documentation and explanation of the historical background, with Argentine material and postcards, etc.). The stamps part is complete except for a very few items. It is missing evidently only the overprint stamp of 1926 (Mi. 47, SG 115), the 5 sh stamp in color yellow orange / black (Mi. 68b, SG 136a) and the 5 sh stamp from 1938 in color orange brown / indigo (Mi 91b, SG 161c). All areas are described using the catalogs of Heijtz, Stanley Gibbons and Michel. The collector has tried, as far as possible, the stamps mint never hinged / unused, used and on letter, not least his care was the colors. The collection includes also special features such as units, gutter pairs, cachets, etc. A separate volume is dedicated exclusively to the postal stationery. The collection still includes two boxes with not yet sorted material and catalogs (Heijtz Sixth Edition, Michel, Stanley Gibbons). It goes without saying that this object needs carefully inspection. | P 20693 • | 1821-1912: "HAITI HISTORICAL DOCUMENTS" Part II: Following the Haiti documents collection Part I, offered and sold in our last auction, we have the pleasure to offer this second part consisting of more than 40 documents from the first free Latin American state of Haiti, created on January 1, 1804 in the former French colony of Saint-Domingue. The documents are from presidents and generals or officials, mostly with corresponding letterheads and original signatures. The signatories were predominantly former slaves who founded the independent state and now held high government positions. There are letters from/signed by Presidents as Jean-Pierre Boyer (1818-1843), Michel Domingue (1874-1876), Cincinnatus Leconte (1911-1912) and Oreste Zamor (1914), also documents from/signed by Generals Luis Defrème, Jean-Baptiste Fabre, Jérôme M. Borgella, Mompont Jeune, Aureline Jeanty, A. Jean, Joseph Larrieux, Hériston Hérisse, Esme Parret, Prud'homme Lecorps, Constantin Ancion, Prosper Fanre, Calix Blaise, Cheramene Lerebours, Louis Tanis Aine, L-J Malary, Annibal V. | W 21087 • | 1965/1970, nine palettes with a gigantic stock of the issues of the KINGDOM OF YEMEN in 120 big plastic boxes, mostly in sheets in original packing of the printing company or souvenir sheets MNH or c.t.o. in a sheer impossible to overlook amount. Some issues stick out as they are there in extreme high quantities, f.e. "Meeting of imam with pope Paul" and "Apollo" both 1969. As usual with this country most stamps were provided perforated and imperforated and although some stamps are on the market quite often this lot also offers many sets, that are not offered on the standard platforms very often, probably because they were stored in this extraordinary estate. The same applies for some "rarities" of this collecting field: Winston Churchill overprints 1965 in various versions (Michel no. 144A/B), 1,5b. supplementary value to the "Insignia" definitives of 1965 (A159A) or Death of Al-amir 1969 (A960), which are all part of this lot in high quantities. As is well-known Yemen focussed on topic collectors a lot and you will find many nice topics here like dogs, cats, Olympics, space, paintings, personalities and many more. Please take some time to view this inventory. (9 Pal.) | | 25.000,- |

| W 21687 | 1916/1918, remarkable collection with ca.20 covers, cards and stationeries, mostly registered mail from a correspondence of Lt Col Thomas, a superior officer of the Anglo-Belgian Forces in Occupied German East Africa. Included are many uprated picture postcards along with various attractive frankings on covers, predominantly addressed to Great Britain, furthermore some local and domestic covers. The mail was sent from different places with postmarks from Kigoma, Mwanza, Tabora, Uvira as well as "B.P.C.V.K" daters and one postcard franked with British India ,I.E.F.' stamps tied by cds ,Base Office B'. A most unusual and obviously very rare circumstance is presented by the fact, that Lt Col Thomas was authorized and responsible to censor mail. Some of the postcards are signed with his own handwritten censoring - so he embodied both sender and censor in one person! Recommended and valuable anthology of colonial postal history! | 22371+ | 1933. Interesting documentation of the 1933 Round-the-world 'goodwill' trip by the Kreuzer Köln. There are ca 64 original, period photographs of the trip taken by a sailor and include several shots each of Guam, Japan, Ceylon, Fiji, Australia, etc. and other Asian/Pacific rim destinations. Some of the most interesting are the Guam natives/buildings and the Fiji natives, particularly in war dress. Some (but not all) of the pictures are annotated on the reverse, and many have the imprint of the Wilhelmshaven (German Navy port city) drugstore where they were developed. A somewhat poetic description of each port of call was typewritten and photographed to document the collection. Condition is perfect to faulty. (M) | | 180,- |

| W 22716 • | <p>1914/18, the Japanese pioneer aviator and WWI-pilot in France, Baron SHIGENO Kiyotake (1882-1924) correspondence: 200+ ppc/cards/field post (F.M.) addressed to the pilot: franked from Japan (ca. 80, some with stamps removed), franked in France (12 inc. two said to be from Japanese artist Fujita), free military mail in France (F.M./franchise militaire, ca. 70, including a. o. one from Avord aviation training camp by adjutant ISHIBASHI K., 1893-1923, another Japanese in French Airforce 1915/18), from foreign (4), unstamped from letters (ca. 36). With many ppc of pioneer aviation in Japan (inc. pre-WWI foreigners like Art Smith, Katherine Stinson etc.) / early WW-I aviation pics in France, interesting senders from France or Japan etc. An unique find. Shigeno K. was the 3rd son of Baron SHIGENO Kiyoharu (d. 1896), a Lt-General in the Imperial Japanese Army. After the death of his wife, in July 1910 he left Japan for France to study music. In Paris he acquired international pilot licence No. 744 on 26 January, 1912. The same year he designed a single-seat tractor biplane and named this aeroplane Wakadori-go (Young Bird, after his late wife, Wakako. The same name was given to his fighter plane Spad-VII in 1917). First flight on 26 April, 1912. Summoned by his family to return to Japan and left France in May 1912 with his dismantled aeroplane. Reassembled, it set a new civil aeroplane record in Japan on 20 April, 1913, reaching 300m (984ft) with a flight of 45min.</p> <p>After becoming a professor at Japan's military aviation school, Shigeno returned to France in April 1914 to buy a new aircraft. When WWI broke out in August, under orders from his superiors, on 20 December 1914 he joined the foreign legion, where he was admitted with the rank of captain. Obtained military pilot patent No. 834, April 19, 1915 in Avord and was assigned, on May 20 to the bombing squadron V 24. On August 23, 1915, on an observation mission north of Reims over the German lines he was copiously fired by enemy DCA, admired by French soldiers who counted 562 Shells fired against him. This led to an honorary report in the French Army's daily "La Croix" Sept. 30 and having him appointed "Knight of the Legion of Honor Oct. 30". Absent due to health problems Sept./Dec., returned to his squadron Dec. 21 1915 to May 22, 1916. By June 1 transferred to the N.12 fighter squadron, despite aged 34, one of the oldest fighter pilots. Then finally assigned Sept. 19, 1916 to N.26 squadron under command of Georges Guynemer (1891-1917), later known as "the storks". His personal symbol, a so-called "Japanese stork", was adopted by the squadron to become the collective emblem. Shigeno had two confirmed victories, one in co-work with Guynemer March 17, 1917 and six unconfirmed.</p> <p>His last combat flight was on August 9, 1917. His health problems forced him to a new hospitalization on August 13, 1917 which spread over the armistice. In the hospital he met a 22-year-old war widow, Ms Jeanne Aimard. He and Jeanne married Oct. 18, 1919. Returned to his squadron, SPA 26, on February 23rd, 1919 and was demobilized March 11, 1919. In January 1920, Shigeno and wife returned to Japan with their daughter. He had started a career in civil aviation but died in Osaka in October 1924. His widow could not make a living in Japan and returned to France, with the two surviving sons. (S)</p> | Ak/ GA/ ☒ | 4.000,- |

W **LOS 22740 / AUSRUF: 80.000 €**

Friedrich Schmiedl was born on 14.05.1902 in Schwertberg in Upper Austria. At the age of five, he launched his first rockets at a garden party and has been fascinated by rockets ever since. He graduated from elementary school, the k. k. Staatsgymnasium and the building trade school in Salzburg. When Russians besieged Premysl in World War I, he proposed in vain to the Imperial and Royal Army High Command the use of post rockets instead of small unreliable balloons. In numerous rocket launches on the Gigerwiese on the Mönchsberg, the student determined the most favourable launch angles. In 1918 Schmiedl tested a rocket helicopter, in 1919 on the Geiereck at Untersberg the bundling and gradual ignition of fireworks. In 1921 Schmiedl began studying chemistry, natural sciences and philosophy at both the Technical University and the University of Graz. Two of his professors received the Nobel Prize. Together with Viktor Hess, the discoverer of space radiation, he investigated the changes in the genetic material of plants both by irradiation and by accelerations up to six times the acceleration due to gravity. The chemist Fritz Pregl studied metabolism, hormones and enzymes. In 1922 Schmiedl built a vacuum test stand to show critics that the recoil principle also works in a vacuum. He corresponded with Albert Einstein, Hermann Oberth, Konstantin Tsiolkovsky, Willy Ley, Auguste Piccard, Guido von Pirquet and many others. The Austrian rocket pioneer regarded the supply of mail to remote mountain farms and refuges as the first step that could be financed by a lone fighter. After his studies, the civil engineer decided to live as a freelance researcher and inventor in Graz. He earned his living by examining concrete.

At the end of May 1928, Schmiedl raised the FS 1 stratospheric balloon from a meadow in the Murauen meadows of Graz to an altitude of 18,800 metres. It was loaded with meters and the first stratospheric mail. At a height of 16 km an adapted barometer box ignited a 15 cm long powder rocket with a miniature letter. She hasn't been found. The gondola with the envelopes landed in Hungary and was returned to its designer two weeks after the ascent. Schmiedl had drawn the inappropriate conclusion from bends in meteorite orbits that the outer atmosphere

of the earth would not turn with the earth and therefore expected the balloon to drift westwards.

Schmiedl often hiked with rockets, cameras and other equipment to the Schöckl Mountain in Graz, where he saw an ideal rocket launch site. He made rockets, balloons, envelopes and many vignettes himself. Without a crane, Schmiedl could build rockets weighing up to 20 kg. He used sodium chlorate and sodium nitrate as fuel in a ratio between 1:6 and 1:3 and made them insensitive to pressure and heat by placing the particles in a rubber solution. Silk paper chips and the use of two types of powder prevented explosions. He lined the coat with asbestos so that the powder would not touch any metal. On 03.07.1928 Schmiedl noted on the unstamped folding letters flown with the test rocket V 2: „The final goal of my rocket flight tests are rocket mail and space flight“.

The only one who crashed on fire was the V6 test rocket when he tried to direct it back to the launch site with a shortwave remote control.

On 02.02.1931 Schmiedl V 7 shot from Schöckl to Radegund with measuring instruments and 102 envelopes. It was equipped with remote control and gyro stabilizer.

Longitudinal grooves on the outer casing prevented the recording rocket fired on 21.04.1931 from twisting. After the burner was burned, the system was operated with small cameras and spectrographs for UV measurement in order to detect the sun outside the smoke trail. Originally it was to become the 3rd stage of a „registration space rocket“ consisting of 31 tested 20 kg rockets.

On 09.09.1931 Schmiedl R 1 - the first rocket with mail from interested parties – shot from Hochtrötsch to Semriach. To at least partially finance his research, Schmiedl created the first rocket mail stamps, which he sold for 10 pennies. Before the start, Austrian Post took 84 letters and cards from abroad to Schmiedl.

Some beetles and butterflies flew through the air in a padded can.

On 23.07.1932 Schmiedl carried three precision watches with the V 13 test rocket - a fourth remained on the ground - in order to symbolically refute Einstein's theory of relativity. Schmiedl sent a remote-controlled missile after this mail rocket, which he called a „flying buoy“ because of its appearance. With this, the convinced pacifist tested the first anti-missile missile.

As gravity and air resistance decrease at higher altitudes, space rockets require the greatest shearing force during launch. Schmiedl therefore developed funnel-shaped and conical rockets for the intended crossing of the English Channel and for space flights. He produced 50 cm high airworthy models of both, with which he carried 6 postcards each on 08.11.1932.

Among the approximately 10,000 rocket launches carried out by Schmiedl are the first night flight of a self-guided rocket - the V 8 of 28.10.1931, and the first two underwater rocket launches UK 1 and UK 2 of 29.12.1933. At UK 1, the slow underwater incendiary charge brought the rocket to the surface of the Murtal reservoir. The upper rocket stage ignited but did not stay on course and led to an early landing.

The deserts of Africa appeared to be particularly suitable for the launch and landing of space rockets. The rotation of the earth near the equator reduces the fuel consumption for reaching the 1st and 2nd cosmic speed. Large uninhabited areas allow for large-scale barriers. And the price of the land is extremely low. Schmiedl launched 5 „desert rockets“ with the fuel, which can be stored and is insensitive to heat and cold. The few maps flown with them are addressed to fictitious inhabitants of various oases and were carried on first flights from Sabena and Air Afrique.

On 21.12.1935 Schmiedl fired two remote-controlled liquid rockets from the pulpit to Gösting near Graz. Fuel was liquid oxygen and ethyl alcohol. In contrast to N6, N7 was equipped with three solid rockets as jump starters.

This extraordinary collection consists of 169 flown documents:

- 156 documents were transported with 44 of the 45 rockets built by Schmiedl, which carried mail between 1928 and 1935.
- 6 documents were carried by the 1st Stratosphere Mail „Höhenballon FS-1“
- 7 documents were carried with the lifting kite D1. This is the first mail to be carried on a jet plane.

Friedrich Schmiedl wurde am 14.05.1902 in Schwertberg in Oberösterreich geboren. Mit fünf startete er bei einem Gartenfest seine ersten Raketen und war seitdem von Raketen fasziniert. Er absolvierte die Volksschule, das k. k. Staatsgymnasium und das Baufach der Gewerbeschule in Salzburg. Als Russen im 1. Weltkrieg Premysl belagerten, schlug er vergeblich dem k. k. Armeekorpskommando den Einsatz von Postraketen anstelle von kleinen unzuverlässigen Ballons vor. In zahlreichen Raketenstarts auf der Gigerwiese am Mönchsberg ermittelte der Schüler die günstigsten Startwinkel. 1918 erprobte Schmiedl einen Raketenhubschrauber, 1919 auf dem Geiereck am Untersberg das Bündeln und stufenweise Zünden von Feuerwerksraketen. 1921 begann

Schmiedl ein Studium der Fächer Chemie, Naturwissenschaften und Philosophie sowohl an der Technischen Hochschule als auch an der Universität Graz. Zwei seiner Professoren erhielten den Nobelpreis. Mit dem Entdecker der Weltraumstrahlung Viktor Hess untersuchte er die Änderungen der Erbmasse von Pflanzen sowohl durch Bestrahlung als auch durch Beschleunigungen bis zur 6-fachen Erdbeschleunigung. Der Chemiker Fritz Pregl erforschte Stoffwechsel, Hormone und Enzyme. 1922 baute Schmiedl einen Vakuumprüfstand, um Kritikern zu zeigen, dass das Rückstoßprinzip auch im luftleeren Raum funktioniert. Er korrespondierte mit Albert Einstein, Hermann Oberth, Konstantin Ziolkowski, Willy Ley, Auguste Piccard, Guido von Pirquet und vielen anderen. Die Versorgung entlegener Berggehöfte und Schutzhütten mit Post sah der österreichische Raketenpionier als ersten, für einen Einzelkämpfer finanzierbaren Schritt an. Der Bauingenieur entschied sich nach seinem Studium für ein Leben als freier Forscher und Erfinder in Graz. Seinen Unterhalt verdiente er mit Betonuntersuchungen.

Ende Mai 1928 ließ Schmiedl von einer Wiese in den Grazer Murauen den Stratosphärenballon FS 1 in eine Höhe von 18.800 Meter aufsteigen. Er war mit Messgeräten und der ersten Stratosphärenpost beladen. In einer Höhe von 16 km zündete eine adaptierte Barometerdose eine 15 cm langen Pulverrakete mit einem Miniaturbrief. Sie wurde nicht gefunden. Die Gondel mit den Umschlägen landete in Ungarn und wurde seinem Konstrukteur zwei Wochen nach dem Aufstieg zurückgegeben. Aus Knicken in Meteoritenbahnen hatte Schmiedl den nicht zutreffenden Schluß gezogen, die äußere Erdatmosphäre würde sich nicht mit der Erde mitdrehen und daher ein Abdriften des Ballons nach Westen erwartet.

Oft wanderte Schmiedl mit Raketen, Kameras und sonstigen Ausrüstungsgegenständen auf den Grazer Hausberg Schöckl, in dem er einen idealen Raketenstartplatz sah. Raketen, Ballone, Umschläge und viele Vignetten fertigte er selbst. Ohne Kran konnte Schmiedl Raketen bis zu einem Gewicht von 20 kg bauen. Als Treibstoff verwendete er Natriumchlorat und Natriumnitrat in einem Verhältnis zwischen 1:6 und 1:3. Durch Einlegen der Partikel in eine Gummilösung machte er sie unempfindlich gegenüber Druck und Hitze. Seidenpapierschnitzel und der Einsatz zweier Pulversorten verhinderten Explosionen. Den Mantel kleidete er mit Asbest aus, damit das Pulver kein Metall berührte. Am 03.07.1928 vermerkte Schmiedl auf den mit der Versuchsrakete V 2 geflogenen unfrankierten Faltbriefen: „Endziel dieser meiner Raketenflugversuche sind Raketenpost und Weltraumflug“.

Als Einzige stürzte die Versuchsrakete V 6 brennend ab, als er mit einer Kurzwellen-Fernsteuerung versuchte, sie zurück zur Abschussstelle zu lenken.

Am 02.02.1931 schoss Schmiedl V 7 mit Messgeräten und 102 Umschlägen vom Schöckl nach Radegund. Sie war mit Fernsteuerung und Kreiselstabilisator ausgerüstet.

Längsrillen am Außenmantel verhinderten ein Verdrehen der am 21.04.1931 abgeschossenen Registrierrakete. Nach Brennschluss

wurde der mit kleinen Kameras und Spektrographen zur UV-Messung ausgerüstete Spitzenteil abgesprengt, um die Sonne außerhalb vom Rauchsweif zu erfassen. Ursprünglich sollte sie die 3. Stufe einer aus 31 erprobten 20 kg schweren Raketen zusammengesetzten "Registrier-Raumrakete" werden.

Am 09.09.1931 schoss Schmiedl R 1 - die erste Rakete mit Post von Interessenten - vom Hochtrötsch nach Semriach. Zur wenigstens teilweisen Finanzierung seiner Forschungen schuf Schmiedl die ersten Raketenpostmarken, die er um 10 Groschen verkaufte. Vor dem Start brachte die Post Schmiedl 84 auswärtig aufgegebenen Briefe und Karten zur Mitnahme. In einer ausgepolsterten Dose flogen einige Käfer und Schmetterlinge durch die Luft.

Am 23.07.1932 beförderte Schmiedl mit der Versuchsrakete V 13 drei Präzisionsuhren – eine 4. blieb am Boden - um die Relativitätstheorie Einsteins symbolisch zu widerlegen. Dieser Postrakete schickte Schmiedl eine ferngesteuerte Rakete hinterher, die er ihres Aussehens wegen "fliegende Tonne" nannte. Damit erprobte der überzeugte Pazifist die erste Antiraketen-Rakete.

Da Schwerkraft und Luftwiderstand in größerer Höhe abnehmen, benötigen Weltraumraketen die größte Schubkraft beim Start. Deshalb entwickelte Schmiedl für die beabsichtigte Überquerung des Ärmelkanals und für Weltraumflüge Trichter- und Kegelförmige Raketen. Von beiden fertigte er 50 cm hohe flugtaugliche Modelle, mit denen er am 08.11.1932 je 6 Postkarten beförderte.

Zu den rund 10.000 von Schmiedl durchgeführten Raketenstarts zählen der erste Nachtflug einer Rakete mit Selbststeuerung - die V 8 vom 28.10.1931, und die beiden ersten Unterwasserraketenstarts UK 1 und UK 2 vom 29.12.1933. Bei UK 1 brachte der lang-

same Unterwasser-Brennsatz die Rakete an die Oberfläche des Murtalstausees. Die Oberstufe zündete, hielt aber nicht den Kurs und führte so zu einer vorzeitigen Landung.

Die Wüsten Afrikas erschienen Schmiedl besonders geeignet für Start und Landung von Weltraumraketen. Die Drehung der Erde vermindert in der Nähe des Äquators den Treibstoffverbrauch für das Erreichen der 1. und 2. kosmischen Geschwindigkeit. Große unbesiedelte Gebiete ermöglichen großräumige Absperrungen. Und der Grundstückpreis ist äußerst niedrig. Mit dem lagerfähigen, gegenüber Hitze und Kälte unempfindlichen Treibstoff startete Schmiedl 5 "Wüstenraketen". Die wenigen mit ihnen geflogenen Karten sind an fiktive Bewohner verschiedener Oasen adressiert und wurden mit Erstflügen von Sabena und Air Afrique befördert.

Am 21.12.1935 schoss Schmiedl zwei ferngesteuerte Flüssigkeitsraketen von der Kanzel nach Gösting bei Graz. Treibstoff waren flüssiger Sauerstoff und Ethylalkohol. Im Gegensatz zu N6 war N7 mit drei Feststoffraketen als Starthilfe ausgestattet.

Diese außergewöhnliche Sammlung besteht aus 169 geflogenen Belegen:

- 156 Belege wurden mit 44 der 45 von Schmiedl gebauten Raketen befördert, die zwischen 1928 und 1935 Post beförderten

- 6 Belege wurden mit der 1. Stratosphärenpost Höhenballon FS-1 befördert

- 7 Belege wurden mit dem Hubdrachen D1 gefördert. Das ist die erste mit einem Düsenflugzeug beförderte Post.

| P 22937 | From 1763 on. An outstanding Exhibition Collection on 128 pages, often decorated with gold and large vermeil, dealing with an extraordinary topic: AN EVOLVING SOCIETY - From ancient time to the beginning of the technological revolution (and a bit beyond). The object is divided into five main chapters: 1) Rural residents produce food and commodities essential for a society to evolve; 2) ...and they exploit the Earth's other natural resources equally essential; 3) Above parameters were prerequisites for the development of urban communities; 4) ... in which widespread activities developed and citizens thrive; 5) The technological revolution began to take hold in society. To run this topic there are, besides a large number of proofs, varieties, artworks, fancy cancellations, a lot of extremely rare pieces, such as 1834 letter with very rae framed postmark "Shepton-Mallet 5 clause post", 1839 letter "Return of votes for country Treasurer from the Town of Buckland", Fancy cancel depicting a gin cask, 1862 letter with special "Deligencia" postmark, 1852 cover "To be forwarded by Everts & Co's Express to Orion Valley", 1854 cover mailed from Elmira N.Y. with their postmark on "10" rate, 1851 letter sent to West 22nd Street in New York and carried on the "Knickerbocker live on Stage", and many other very good and interesting items. The whole collection is excellently designed and provided with competent comments throughout - a real pleasure! The Founding of FIS on February 2, Gold Medal Winning Collection beautifully mounted & knowledgeably written up 127 album pages showing the different sides of skiing and its impact on sport and culture in the snow-covered part of the world. Skiing, together with skating, were the main sports that established the Olympic Winter Games, and although there have been strong conflicts between the IOC and the International Federations for the winter sports, skiing is today the undisputed most popular winter sport in the world, and the Olympic Winter Games have grown in popularity every fourth year. The World of Skiing covers the various skiing sports, from cross country to snowboard, and from ski touring to speed skiing. The collection also shows how skis have been used in war, and how skiing has grown to be a strong activity in international tourism. A truly wonderful collection, having been recognized at the highest level as one of the most important collections covering the theme of Skiing ever formed, 2008 Beijing Goldmedal with 92 points, best exhibit. | P 23242 | 1916/1939. The story of the TEDDY BEAR, which is still very popular today, is the story of RICHARD STEIFF, the nephew of the company's founder Margarete Steiff. He is the father of the teddy bear, so to speak. Based on sketches Richard made during his frequent visits to the Stuttgart zoo and the bear enclosure there, he developed the first Steiff Bear PB55. Now this name was not very romantic, but quite practical for product characterization; it meant P stands for "Plüsch" (plush), B for "Beweglich" (movable) and 55 for the size of 55 cm. After some initial difficulties during the Leipzig Fair were overcome, the Steiff Bear began its triumphal procession around the world. The actual name Teddy was given to the bear after Theodore Roosevelt (who was also a passionate hunter), whereby Teddy is the American short form for Theodore. Finally, due to a special hunting-bear incident, which then became independent through the press (especially through various caricatures of the bear, which got cuter and cuter), the readers, who had already sold this bear in the USA, gave this bear the name Teddy. - THIS COLLECTION CONTAINS in all 61 items (covers, postcards, picture postcard, photograph and a cheque addressed and related respectively to Richard Steiff, resident of Jackson, (Mich.) USA, and is supplemented by some (English) texts on the history of the Steiff company. (A) | ☒ | 650,- |

Exhibition collection, often decorated with gold and large gold, on 128 sheets in 3 folders (30 exhibition documents from the period 1995 to 2017 are enclosed, in whose sequence the development of the collection can be followed very nice). The collection is divided into 8 main chapters with various subchapters: 1-Stretching, swinging and whirling. 2-Meet new ideas. 3-Comrades unite and fight. 4-Combination of strength and suppleness. 5-Combination of strain and charm. 6-Flexibility with left and right. 7-Jumping into the air. 8-Jumping, turning and climbing. There is a considerable number of high quality items as for instance: Austria 1962 "Sport" (Mi. #1121) as imperforated single proof in grey-ultramarine (FA Soecknick (2014): hitherto first known piece), an 1822 military letter sent by Crownmail in Aland provided with a wonderful white feather, a caricature Mulready from 1840 "Fores's Musical Envelope", a German Reich Olympic entire card bearing the very rare Olympic cancel "Pressehauptquartier" (missing ,u' in ,quartier'; only used in the morning of the 27th of July 1936). In further there are many different proofs (also for Bavarian private postcards), artworks, special cancellations, as well as various interesting things, as for example V-Mails, advertising letter card and ad telegram, Theresienstadt form announcing that one special ,admission stamp' is enclosed, fancy cancellation ,bags of dollars', and so on. In addition there are 9 stockbooks with many covers and (picture) entire cards showing more special cancellations and usages, and a folder with general information about gymnastics. | W 23401 | From 1806 on (approx.), All World. Here not only one dog barks, no, here thousands of dogs bark, but of course only in a figurative sense in the form of covers, entires and stamps. Big stock concerning the DOG topic including a 3-volume exhibition collection (84 pages) THE BOXER DOG (and what you should know about it contrasts with other dog breeds). This collection contains a quite nice number of fine items such as "1912 Flug-Post-Karte (Rhein/Main)" bearing twice "1 M Gelber Hund", one of them with variety "1 M Gelber Huna", unused Mulready 1d entire (type 1a) showing a dog, several advertising entires showing pictures of dogs, an illustrated commercial cover "Margarete Steiff" sent to Sweden with a very nice picture of a toy dog, many covers with interesting special cancellations and meter stamps, and also special usings e.g. "Leipziger Hundepost", nice frankings, proofs and much, much more. Further on there is a fourth album with covers and entires (i. a. an other Mulready 1d, now used) and 6 drawers with thousands of more covers, entires and of course stamps, souvenir sheets, stamps booklets etc., apparently all mint, and without duplicates. And sorted by country names. This lot is a really salubrious offer for the dog friend and in this abundance not so easily, if at all, again procurable! (RE1) | ☒/ GA/ **/ ☉ | 7.000,- |

Allgemeine Versteigerungsbedingungen

Durch die Abgabe von Geboten werden die nachfolgenden Geschäftsbedingungen des Versteigerers anerkannt.

Diese Geschäftsbedingungen gelten, sofern und soweit zwingendes Recht am Ort der Versteigerung keine anderslautenden Regelungen vorschreibt.

1. Die Versteigerung erfolgt öffentlich und freiwillig in eigenem Namen und für eigene Rechnung gegen sofortige Bezahlung in Euro. Devisen und Schecks werden zum Tageskurs der Bundesbank angenommen. Handel und Tausch sind im Auktionsaal nicht gestattet.
2. Die Steigerungssätze sind dem jeweils aktuellen Auktionsprogramm zu entnehmen und betragen 5 bis 10% des Ausrufwertes bzw. des am geringsten Geboteten Wertes. Der Zuschlag ergeht nach dreimaligem Ausruf an den Meistbietenden. Der Versteigerer hat das Recht, ohne Angabe von Gründen Personen von der Auktion auszuschließen, den Zuschlag zu verweigern, Gebote abzulehnen, Lose zurückzuziehen, zu vereinigen, aufzuteilen, umzugruppieren, bei Unklarheiten oder Missverständnissen nochmals aufzurufen oder in begründeten Fällen unter dem Vorbehalt der Genehmigung des Einlieferers zuzuschlagen. Untergebote mit Vorbehalts-Zuschlägen bleiben für den Bieter vier Wochen verbindlich, sind aber für den Versteigerer freibleibend. Bei gleich hohen Geboten entscheidet die zeitliche Reihenfolge des Gebotseinganges, bei zeitgleichem Eingang das Los. Lose, die „gegen Gebot“ ausgerufen werden, bedingen ein Mindestgebot von 20,- Euro und werden zum Höchstgebot zugeschlagen.
3. An den Versteigerer übermittelte (schriftliche) Gebote werden streng interessenswährend nur in dem Umfang ausgeschöpft, der notwendig ist, um anderweitig vorliegende Gebote zu überbieten, werden jedoch ohne Gewähr ausgeführt.
4. Telefonische Bieter müssen mindestens den Ausruf bieten und eine schriftliche Bestätigung nachreichen. Im Falle einer Nichterreichbarkeit gilt das Mindestgebot als geboten. Bei Telefongeboten übernimmt der Versteigerer keine Gewähr für das Zustandekommen einer Verbindung.
5. Der Versteigerer erhält vom Käufer ein Aufgeld von 23,8% des Zuschlagspreises sowie 2,- Euro pro Los. Für Lose, die mit einem Sternchen gekennzeichnet sind, wird für den Zuschlagspreis ein Aufgeld die gesetzliche Umsatzsteuer erhoben. Lose ohne Kennzeichnung unterliegen der Differenzbesteuerung nach §25a UStG; es erfolgt kein gesonderter Umsatzsteuerausweis. Bei Los mit + (Plus) hinter der Losnummer handelt es sich ebenfalls um differenzbesteuerte Lose, jedoch werden zusätzlich die mit dem Import verbundenen Kosten in Höhe von 7% des Zuschlags (= Importspesen, die Bestandteil des Kaufpreises sind) an den Käufer weiterberechnet. Bei Zusendung der Ware werden Porto und Versicherungspauschale zuzüglich gesetzlicher Umsatzsteuer gesondert in Rechnung gestellt. Käufe, die in ein umsatzsteuerliches Drittland ausgeführt werden, sind von der Umsatzsteuer befreit. Steuern/Abgaben für die Einfuhr der Käufe im Zielland gehen zu Lasten des Käufers.
6. Mit dem Zuschlag kommt ein Kaufvertrag zwischen dem Versteigerer und dem Bieter zustande. Er verpflichtet den Käufer zur Abnahme und Bezahlung am Versteigerungsort. Wer für Dritte bietet, haftet selbstschuldnerisch neben diesen. Gleichzeitig geht mit der Zuschlagserteilung die Gefahr für nicht vom Versteigerer zu vertretende Verluste oder Beschädigungen auf den Käufer über. Das Eigentum an der versteigerten Sache wird erst nach vollständigem Zahlungseingang beim Versteigerer auf den Käufer übertragen. Schriftliche Bieter erhalten in aller Regel eine Vorausrechnung, die sofort fällig ist. Erst nach vollständiger Bezahlung der Rechnung besteht ein Anspruch auf Aushändigung der gekauften Lose.
7. Sind Lose vereinbarungsgemäß vom Versteigerer zu versenden, hat der Käufer dem Versteigerer zu Nachforschungszwecken spätestens zehn Wochen nach dem Ende der Auktion (bei Vorkasse: nach der Bezahlung der Ware) schriftlich mitzuteilen, falls die zu versendende Ware nicht oder nicht vollständig zugegangen ist.
8. Alle Beträge, welche 14 Tage nach der Versteigerung bzw. Zustellung der Auktionsrechnung nicht beim Versteigerer eingegangen sind, unterliegen einem Verzugszuschlag von 2%. Dazu werden Zinsen in Höhe von 1% pro Monat erhoben, es sei denn, der Käufer weist nach, dass ein geringerer oder kein Schaden entstanden ist. Im Übrigen kann der Versteigerer wahlweise Erfüllung oder nach Fristsetzung Schadenersatz wegen Nichterfüllung verlangen; der Schadenersatz kann dabei auch so berechnet werden, dass die Lose verkauft oder in einer neuen Auktion nochmals angeboten werden. Der säumige Käufer muss hierbei für den Mindererlös gegenüber der früheren Versteigerung und den damit verbundenen zusätzlichen Kosten einschließlich der Gebühren des Versteigerers aufkommen. Auf einen eventuellen Mehrerlös hat er jedoch keinen Anspruch.
9. Die zur Versteigerung kommenden Lose können vor der Auktion besichtigt und geprüft werden. Sie werden in dem Zustand versteigert, in dem sie sich bei der Auktion befinden. Die nach bestem Wissen und Gewissen vorgenommenen Katalogbeschreibungen sind keine zugesicherten Eigenschaften. Der Käufer kann den Versteigerer nicht wegen Sachmängeln in Anspruch nehmen, sofern dieser seiner obliegenden Sorgfaltspflicht nachgekommen ist. Sammlungen, Posten etc. sind von jeglicher Reklamation ausgeschlossen, ansonsten verpflichtet sich der Versteigerer jedoch, wegen begründeter Mängelrügen, die ihm bis spätestens vier Wochen nach Auktionsschluss angezeigt werden müssen, innerhalb der Verjährungsfrist von einem Jahr seine Gewährleistungsansprüche gegenüber dem Einlieferer geltend zu machen.
Im Rahmen von Reklamationen ist bei der Rücksendung an den Versteigerer die Original-Loskarte beizufügen. Die Lose müssen sich in unverändertem Zustand befinden. Dies betrifft auch das Entfernen von Falzen, das Wässern, sowie chemische Behandlungen. Lediglich das Anbringen von Prüfzeichen der Mitglieder eines anerkannten Prüferverbandes gilt nicht als Veränderung. Der Versteigerer kann verlangen, dass bei Reklamationen ein entsprechender schriftlicher Befund eines zuständigen Verbandprüfers eingeholt wird. Will der Käufer eine Prüfung vornehmen lassen, so ist dies dem Versteigerer vor der Auktion mitzuteilen. Die Reklamationsfrist verlängert sich entsprechend. Dies betrifft jedoch nicht die Verpflichtung zur sofortigen Bezahlung der Lose. Die Kosten einer Prüfung werden dem Käufer in Rechnung gestellt, wenn das Prüfergebnis mit der Losbeschreibung übereinstimmt oder der Käufer das Los trotz abweichendem Prüfungsergebnis erwirbt. Mängel, die bereits aus der Abbildung ersichtlich sind, berechtigen nicht zur Reklamation. Lose, bei denen Fehler beschrieben sind, können nicht wegen eventueller weiterer geringerer Fehler zurückgewiesen werden. Im Falle erfolgreicher Inanspruchnahme des Einlieferers erstattet der Versteigerer den gezahlten Kaufpreis einschließlich Aufgeld zurück; ein darüber hinausgehender Anspruch ist ausgeschlossen. Der Versteigerer ist berechtigt, den Käufer mit allen Reklamationen an den Einlieferer zu verweisen. Durch die Abgabe eines Gebotes auf bereits von anerkannten Prüfern signierte oder attestierte Lose werden die vorliegenden Prüfzeichen oder Atteste als maßgeblich anerkannt. Werden Lose unter dem Vorbehalt der Gutachten anderer Prüfer geboten, so ist dies dem Versteigerer mit dem Gebot mitzuteilen.
Bezeichnungen wie „Pracht“, „Kabinett“, „Luxus“ etc. stellen die subjektive Einstellung des Versteigerers und in keinem Falle eine Beschaffenheitsangabe im kaufrechtlichen Sinne dar. Lose, die mit „feinst“ oder „fein“ beschrieben sind, können Fehler aufweisen. Stücke, deren Wert durch den Stempel bestimmt wird, können wegen anderer Qualitätsmängel nicht bestritten werden.
10. Ansichtssendungen sind nur von Einzellosen möglich. Postfrische Marken sind von der Versendung ausgeschlossen. Die Lose sind innerhalb von 24 Stunden zurückzusenden, wobei die von uns gewählte Versendungsart anzuwenden ist. Gefahr und Kosten gehen zu vollen Lasten des Anforderers. Sollten die Lose am Auktionstag nicht vorliegen, so werden sie eine Steigerungsstufe über dem nächsthöheren Gebot, mindestens jedoch zum Ausruf, dem Anforderer zugeschlagen.
11. Erfüllungsort ist Bietigheim-Bissingen. Das gilt auch, wenn wir die Ware ausnahmsweise an einem anderen Ort übergeben oder von einem anderen Ort aus versenden. Gerichtsstand für den vollkaufmännischen Verkehr ist Ludwigsburg. Es gilt ausschließlich deutsches Recht. Kommen Kaufverträge durch Versteigerung in einem Land außerhalb der Bundesrepublik Deutschland zustande, findet bei Verbrauchern deutsches Recht nur Anwendung, soweit hierdurch der durch zwingende Bestimmungen des Rechts des Staats des gewöhnlichen Aufenthalts des Verbrauchers gewährte Schutz nicht entzogen wird (Günstigkeitsprinzip).
12. Sollten eine oder mehrere der vorstehenden Bedingungen ganz oder teilweise unwirksam sein oder werden, berührt dies nicht die Gültigkeit der übrigen Bedingungen. Es soll das dem ursprünglich wirtschaftlich verfolgten Zweck entspricht oder ihm am nächsten kommt.
13. Vorstehende Bestimmungen gelten sinngemäß auch für den Nachverkauf und den freihändigen Verkauf.

General Auction Conditions

By the submission of bids the following General Auctions Conditions of the Auctioneer are recognized and accepted.

These Auction Conditions shall apply, unless binding law at the location of the auction stipulates divergent provisions.

1. The auction is voluntary and held in public in the name of the auctioneer on his own behalf for his own account against immediate payment in Euro. Foreign currency and cheques are accepted at the daily exchange rate of the German Federal Reserve. Trading and exchange are not allowed in the auction rooms.

2. Bidding increments are published in the actual Auction Manual and are from 5 to 10% of the starting price or the actual submitted bid price respectively. The lot is sold to the highest bidder after threefold call. The Auctioneer reserves the right to bar persons from the auction at his sole discretion, to refuse knocking a lot down or to withdraw, pool, recombine or divide lots, to call lots once more in case of equivocality or misunderstandings or to knock a lot down subject to consignor's approval. Bids below the starting price with a knockdown subject to consignor's approval are binding for the bidder for a period of four weeks but are non-binding for the auctioneer. In case of even bids the chronological order of their receipt is applicable; in case of simultaneous receipt of even bids the auctioneer decides by drawing lots.

3. Bids transmitted to the auctioneer (in written form) will be treated with confidence and will only be used to top the other previous bid. However the auctioneer cannot take responsibility for this procedure. Lots without a particular starting price require a minimum bid of 20,- Euro and will be knocked down to the highest bid.

4. Telephone bidders must offer at least the starting price and submit a written confirmation thereafter. In the event of unavailability of the bidder on the phone the minimum bidding price is valid. The auctioneer is not responsible for the setting up and/or persistence of the telephone connection.

5. The auctioneer receives a premium of 23.8% of the hammer price from the buyer plus 2.00 Euro per purchased lot. For all lots which are marked with • behind the lot number Value Added Tax (VAT) will be added to the hammer price and to the buyers premium. Lots without marking are sold under the margin system (§25a UStG); there will be no turnover tax statement. Lots marked with + are sold under the margin system as well but additional expenses for importing the items in the amount of 7% of the hammer price are charged (= Import Expenses, which are part of the total sales price). If shipment is requested by the buyer or becomes necessary, costs for postage, packing and insurance plus VAT will be charged separately. For purchases from abroad, which will be exported to a third country (non-EU), VAT will not be invoiced after receiving an evidence of exportation. Duty and/or other charges related to importing the purchases into the country of destination are on buyer's account.

6. The purchase contract between the auctioneer and the buyer is closed on the knockdown of the lot. Based on this contract the buyer is obliged to accept and pay for the goods at the point of sale. In case of bidding for a third party, the bidder is liable as a principal as well as the third party. At the moment of knockdown all risks concerning loss or damage of a purchased lot is the responsibility of the buyer. The ownership of the auctioned goods will only be transferred to the buyer when full payment has been effected. Bidders making written bids will in general receive a prepayment invoice, which is due for immediate payment. Only if the invoice has fully been paid, the buyer has the right to claim ownership of the purchased lots.

7. If it is agreed, that the auctioneer will ship the purchased lots, and they are not or not completely received within ten weeks after the end of the auction (in case of prepayment: after the payment of the goods) latest, the buyer has to inform the auctioneer in writing about this incident for purposes of investigation.

8. Outstanding debits, which have not been paid 14 days latest after the auction and/or receipt of the invoice, will be subject to a default charge of 2%. Furthermore 1% interest per month will be charged unless the buyer can provide evidence that only a lower or no damage has been caused. Furthermore it is in the auctioneer's sole discretion whether he insists on performance or on compensation due to non-fulfillment after a set period. Compensation will be calculated after the lots have been sold directly or on another auction to a third party. In this case the defaulter has to compensate the loss of the auctioneer resulting from a lower sales price and additional costs. The defaulter is not entitled to additional proceeds earned by the auctioneer when selling the lots to a third party.

9. The objects for auction may be viewed and inspected prior to the auction. They will be auctioned in the condition as they are at the time of auction. The catalogue descriptions were made in all conscience and do not warrant any characteristics. The buyer cannot hold the auctioneer liable for any faults provided that the auctioneer has not infringed his duty to take care. Collections, batches etc. are excluded from any complaint, apart from that the auctioneer is obliged to hold the consignor liable for any complaint, which is made by the buyer within a period of 4 weeks after the auction, within a limitation period of one year. Complaints concerning a lot must be sent to the auctioneer together with the original auction lot card. The lot must be presented in its unchanged condition. This applies to the removal of hinges, submersion in water as well as chemical treatment. Only the application of sign information by a member of an acknowledged auditor association will not be regarded as tampering. In the event of complaints the auctioneer can demand a written expertise of an acknowledged auditor. If the buyer intends to get an expertise, he will inform the auctioneer about it prior to the auction. The period for complaint will be prolonged respectively. However, this does not inflict the right of the auctioneer to be timely paid. Any pre-sale fees will be charged to the buyer, if the result matches the lot description or if he acquires the lot in spite of dissent opinion. Any faults, which are obvious at the time of photography, are excluded from the right of complaint. If faults of a lot are described in the auction catalogue, this lot will not be rejected and returned by the buyer because of further smaller faults. In the event of a successful claiming of the consignor the auctioneer refunds the paid purchase price and buyer's premium; the buyer is not entitled to further claims. The auctioneer has the right to refer the buyer with a lot of his complaints to the consignor.

By bidding on lots, which were already signed or certified by acknowledged auditors, the buyer accepts these approval marks or certificates as decisive. If bids are placed with reservation of an appraisal of another auditor, the bidder will inform the auctioneer about this reservation when placing his bid. Descriptions such as „Pracht“, „Kabinett“, „Luxus“ etc. are a subjective opinion of the auctioneer and under no circumstance a statement in regard to warranted characteristics. Lots which bear the description „feinst“ or „fein“ may possibly have small faults. Objects having a value which is defined by their postmark are excluded from complaint of any other defects.

10. Only single lots can be shipped for viewing. They must be returned to the auctioneer within 24 hours, in doing so our mode of dispatch must be utilized. Any risks and costs are for the account of the requesting party. If these lots are not present in the auction house on the day of the auction, they will be knocked down in favour of the requesting party one increment above the highest bidding price but at least for the starting price.

11. Place of fulfilment is Bietigheim-Bissingen. This will also apply, if by way of exception we hand the goods over at another location or if we send the goods from another location. Place of jurisdiction for the full trading is Ludwigsburg. Only German law shall apply. If purchase contracts are closed by auction in a country outside Germany, for consumers German law shall only apply, as far as hereby the granted protection of the law of the state, in which the consumer has his main residence, is not withdrawn (favourability principle).

12. Should one or more of the conditions above or a part of them become invalid, the validity of the other conditions will remain unchanged. The invalid conditions shall be replaced by valid conditions, which conform to their economic purpose.

13. The conditions above shall also apply to after sale and private treaty.

1-1 Multifarious Species contribute physically to our everyday Life in many Respects
Horses with their many Skills work hard for us

"Patent Envelope/Booklet"
Victoria 1859
One Penny
(printed in private order)

The envelope has a crescent cut out in the impressed stamp
A booklet containing 16 sheets with a total of 46 advertisements was inserted in the envelope

If you want a GOOD VEHICLE
T. GRAINE'S, PRINCE'S BRIDGE, CITY ROAD.

The inserted sheets are folded in a symmetrical form and the missing part of the stamp was impressed on these in such a way that every sheet has a part of it

When the booklet was mailed the crescent part of the cancel was placed inside the envelope in order to make a complete impressed stamp
Small messages could be included in the envelope together with the booklet and the envelope/booklet was sold to the public at half face value

Complete impressed stamp

Many types of Carts, Carriages and Coaches have been constructed over the time and used for various purposes

Postal Stationery
Postcard
Greece
1/8L for international mail

With additional albedo imprint 1/8L which was for the cost of the card itself

1-3 Multifarious Species contribute physically to our everyday Life in many Respects
The patient Oxen and Bullocks are sine qua non for many Tasks

In the early 1850's in India some of the ruling maharajas constructed railways but no locomotives were yet available
Teams of Bullocks were therefore used to haul the coaches

They made an average speed of 2 1/2 miles per hour between the relays which were 8-10 miles apart

Die proof from the archives of Thomas de la Rue

Locomotives were eventually introduced and with the growth and expansion of railway communication the use of **Bullock Trains** conveying mail, packages and parcels began to decline

An agency named **"The Government Bullock Train"** was established under the management of the Post Office Department and the agency officers were under the charge of the Post Masters

But even as late as 1880, the Thacker's Bengal Directory announced that the **Bullock Train** Agency could be used for booking and conveyance of passengers and packages although the Government would not be responsible for any loss or damages

RRRR - Letter sent on "Benares Bullock Train"

e Receipt for shipment of 4 packages for despatch on Government Bullock Train with **"Bullock Train"** post office marking, which is the only known marking for this service

3-4 Many Species of Mammals are vital for our Supply of Food or Commodities
Sheep, Goats and other Species serve us - often in rural Areas

RRRR

Letter sent June 11, 1861, from Victoria, Australia, to Hobart Town, Tasmania

At that time both were separate colonies so the international postal rules applied
In pre-U.P.U times the sender could indicate the route which an international letter had to travel

Shepherding is one of the oldest professions, beginning some 6,000 years ago in Asia Minor

Sepia Proof
Only maximum 4 pcs were made from the unhardened die as a final check before printing

6-3 - and we can use them in sporting Events
- as well as Birds-of-Prey and fishing Cormorants

Hand painted Essay by **"Thomas De La Rue & Company Limited"**
(e)

Falconry is a sport which involves the use of trained Falcons or Eagles to hunt or pursue game

Falconry was probably introduced to Europe around AD 400, when the Huns and Alans invaded from the East

RRR - Below: Letter sent from Boulogne-sur-Mer in Northern France on 3rd October, 1856, to London informing the addressee that a parcel had been sent from Lyon through "Faulkner" in Falkstone

Letter is endorsed **"Faulkner's Continental Parcel Office, Falkstone"**, which was an agent with contacts in other European countries from where mail and parcels to England were collected and sent via Falkstone to the recipients

The letter is franked in Falkstone with 1d only. If it had been franked in France it would have cost the equivalence of 4d

"Faulkner" is one of the spellings of old occupational English names for someone who kept and trained Falcons i.e. a Falconer
